

Braille by Xact Lingo

We are able to translate English to Braille. We will provide a final digital copy which you can use to have Braille printed (embossed). Or, we can also provide printed Braille. Cost needs to be quoted upon request.

Original Text in English:

To help you communicate effectively with blind or vision-impaired customers, patients, employees and others, Xact Lingo offers English to Braille transcription services.

Xact Lingo only works with experienced Braille experts to give you the best English to Braille transcription service for all your material needs. We carefully make sure your document is transcribed exactly as received in both printed and electronic Braille formats.

If you need our services, we encourage you to contact us. We will provide you with the best service, affordable rates, and an exact transcription, every time.

Translated to Braille (digital format, ready for printing):
